Project Name	Project - Visualizing and Predicting Heart Diseases With An Interactive Dash Board
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Visualizing and Predicting Heart Diseases with an Interactive Dash Board

"Visualizing and Predicting Heart Diseases with an Interactive Dashboard" aims to create a holistic solution that addresses the challenges of visualizing and predicting heart diseases, making data accessible and actionable for healthcare professionals and patients, while also ensuring data security and compliance with healthcare regulations. The ultimate goal is to improve patient care, early detection, and outcomes related to heart diseases.
